

STATEMENT OF AUTHORSHIP AND COPYRIGHT TRANSFER

Manuscript Title:

As the undersigned author, I hereby affirm that I have reviewed the submitted manuscript for publication in the journal Medicinski razgledi. I state the following:

- no part of the manuscript (including, but not limited to, the figures and images) has yet been published as part of a different manuscript,
- the manuscript has not been submitted elsewhere, and
- the manuscript has not yet been accepted or published in any language.

I state that I have made substantial contributions to the conception and design of the manuscript, analysis and interpretation of data, and drafting of the manuscript. Therefore, I take public responsibility for the content of the manuscript.

I state that all subjects participating in the study gave informed consent for participation. All research was carried out in accordance with the Declaration of Helsinki. All experiments involving test animals were carried out in accordance with current legislation and ethical principles.

By signing the Statement of Authorship and Copyright Transfer, the undersigned authors as a group and as individuals hereby transfer, assign or otherwise convey all copyright ownership to Društvo Medicinski razgledi, Korytkova ulica 2, 1000 Ljubljana, Slovenia. If the manuscript is not published in the journal Medicinski razgledi, the copyright transfer is void.

First and Last Name of Author, Signature:

Location, Date:

Note

The Statement of Authorship and Copyright Transfer must be hand-signed by all the authors. Stamps or printed signatures are not valid. The original statement must be sent to the editorial office. Until we receive the original statement, signed by all authors, the manuscript will not be published. If the manuscript contains images from which the patient identity can be deduced, the manuscript must be accompanied by a hand-signed patient statement, permitting the publication of the images. If the manuscript contains material (e. g. figures and tables) which has already been published elsewhere, please enclose the permission of the original authors and the publisher for reproduction of the content.
